- Ethernet cable

Product highlights

Free Skype calls everywhere
Use your VOIP phone to call via Skype wherever you are. With Skype you can enjoy making free calls all over the world to any other Skype users. Skype, SkypeOut are trademarks of Skype Limited.

Landline and Internet calls
As your dual phone is connected to both the standard PSTN line AND to the Internet line, you can establish or receive landline and Internet calls on the same handset.

Speakerphone - Talk handsfree
Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or take notes during a call.
